

Affordable Master Quality HD Video

Shoot in 10-bit, 4:2:2 AVC-Intra quality with the new AG-HPX370 P2 HD Camcorder

Panasonic's AG-HPX370 P2 HD camcorder moves you up to a whole new level of production quality. A new, state-of-the-art 2.2 megapixel 3-chip U.L.T imager* produces stunning HD content in a wide range of shooting conditions, with the sensitivity and signal-to-noise ratios of larger imagers. With a superior 10-bit, 4:2:2, full 1920 x 1080 resolution AVC-Intra codec, the HPX370 can record more image detail more accurately. Ready for global production, the HPX370 offers international HD and SD standards, including 1080p/i and 720p as well as industry-standard DVCPRO HD.

Backed by a 5-year limited warranty, the HPX370 offers an ultra reliable solid-state design. And you can easily configure the HPX370 into a studio camera.

Start your next project with all the advantages of P2 HD's faster, file-based workflow and AVC-Intra's precise independent-frame encoding. You deserve the HPX370. For more info, visit www.vtsvideo.com. For a free demo or to purchase the powerful HPX370, e-mail us at sales@vtsvideo.com.
